

BioCryst Pharmaceuticals and Idera Pharmaceuticals to Present at the JMP Securities Life Sciences Conference

June 13, 2018

RESEARCH TRIANGLE PARK, N.C. and EXTON, Pa., June 13, 2018 (GLOBE NEWSWIRE) -- BioCryst Pharmaceuticals, Inc. ("BioCryst") (NASDAQ:BCRX), and Idera Pharmaceuticals, Inc. ("Idera") (NASDAQ:IDRA), today announced that they will be presenting at the JMP Securities Life Sciences Conference on Thursday, June 21, 2018 at 10:00 A.M. E.T.

Links to a live audio webcast and replay of this presentation may be accessed in the Investors section of BioCryst's website at <http://www.biocryst.com> and in the Investors and Media section of Idera's website at <http://www.iderapharma.com>.

About BioCryst

BioCryst Pharmaceuticals designs, optimizes and develops novel small-molecule medicines that address both common and rare conditions. BioCryst has several ongoing development programs including BCX7353, an oral treatment for hereditary angioedema, galidesivir, a potential treatment for filoviruses, and a preclinical program to develop oral Alk-2 inhibitors for the treatment of fibrodysplasia ossificans progressive ("FOP"). RAPIVAB[®] (peramivir injection), a viral neuraminidase inhibitor for the treatment of influenza, is BioCryst's first approved product and has received regulatory approval in the U.S., Canada, Australia, Japan, Taiwan, Korea and the European Union. Post-marketing commitments for RAPIVAB are ongoing. For more information, please visit the Company's website at <http://www.biocryst.com>.

About Idera

Harnessing the approach of the earliest researchers in immunotherapy and the company's vast experience in developing proprietary immunology platforms, Idera's lead development program is focused on priming the immune system to play a more powerful role in fighting cancer, ultimately increasing the number of people who can benefit from immunotherapy. Idera continues to invest in research and development, and is committed to working with investigators and partners who share the common goal of addressing the unmet needs of patients suffering from rare, life-threatening diseases.
